PROFILE

Computer Science student at NUST with a passion for building production-ready mobile and full-stack applications. Experienced in React Native, Firebase, and AI API integrations with multiple real-world projects shipped and published on GitHub. Eager to bring clean, scalable solutions to challenging problems.

SKILLS

Mobile Development	React Native · Flutter · Expo
Frontend	HTML / CSS · JavaScript · TypeScript
Languages	Python · C++
Backend & Cloud	Firebase · Node.js · REST APIs
AI & Tools	Groq AI · OCR · Git & GitHub

EDUCATION

BS Computer Science	2023 – 2027
National University of Sciences & Technology (NUST)	
• Currently in 6th Semester — Expected Graduation: 2027	
• Relevant coursework: Data Structures, Algorithms, OOP, Software Engineering, Database Systems	

PROJECTS

RepoMind AI → [GitHub](#)

React · TypeScript · Node.js · Express · Groq AI

- AI-powered code reviewer — paste code or browse a GitHub repo for instant structured feedback.
- Structured output across four categories: Bugs, Security Issues, Code Quality, and Improvements.
- Groq-powered LLM analysis with language-aware heuristic fallback; fixed false-positive detection across Python, JS/TS, and config files.
- GitHub API integration for per-file repo review; supports Python, JavaScript, TypeScript, React, and Java.

Local Deals Pro → [GitHub](#)

React Native · Expo · TypeScript · Firebase · Zustand

- Full-stack mobile app connecting users with real-time local deals — location-aware with adjustable radius filtering.
- Flash Deals feature with live countdown timers and QR code scanning for in-store deal redemption.
- Merchant Dashboard for adding & managing deals; Verified Business badge system for trust.
- Firebase Auth, Firestore & Cloud Storage backend with favourites, dark/light themes, and animated UI.

Border AI Trade Assistant → [GitHub](#)

React Native · Expo · TypeScript · Firebase · Node.js · Groq AI

- Cross-platform mobile app assisting traders at Chaman Border crossing with AI-powered document tools.
- Groq AI integration for intelligent document analysis, HS Code lookup, and customs guidance.
- OCR-based document scanning workflow for processing trade and customs paperwork.
- Firebase Authentication & Cloud Storage with offline document support and API security best practices.
